What's in the Box?

- The Marine Watch S-ACE Annunciator Panel
- A mounting frame
- A bag with fastening material
- An RJ45 IP-rated connector kit
- This Quick Installation Guide

What's *not* in the box:

The basic harness kit – p/n 1006946 – is necessary to complete the installation, and must be ordered separately.

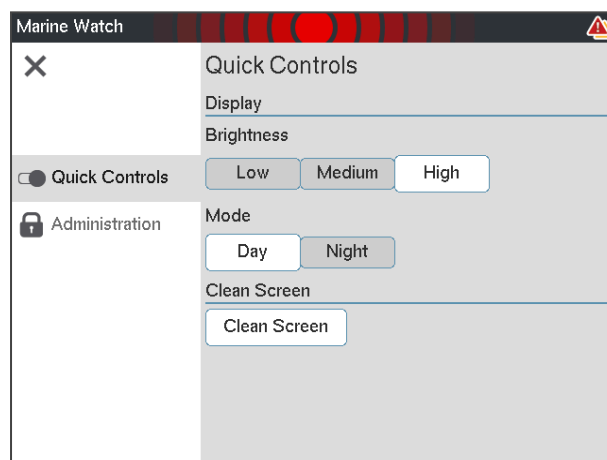

User Interface Basics

User Interface

Clear indication with sound and flashing objects.

A sample screenshot of the menu below.

Buttons

The **Home** button toggles between the menu and alarm list.

The **Alarm** button displays the alarm list and silences the buzzer.

Power Supply	8	12/24	32	VDC
	-	0.4	-	A

Rear Side Connectors

USB — RJ45, Ethernet

C1	C2	C3	C4
Power	Not In use	Not In use	Not In use

Installation

1. Remove the unit from the ESD Bag. Use the submitted mounting frame and fastening material to install the panel in a suitable enclosure.

2. Make sure the power ratings are correct and then plug the Deutsch™ DT12 connector into C1.

3. Connect the Ethernet cable, and seal the cable with the RJ45 connector kit.

4. To ensure IP-rating, fit the sealed DT12-connectors to C2, C3, and C4.
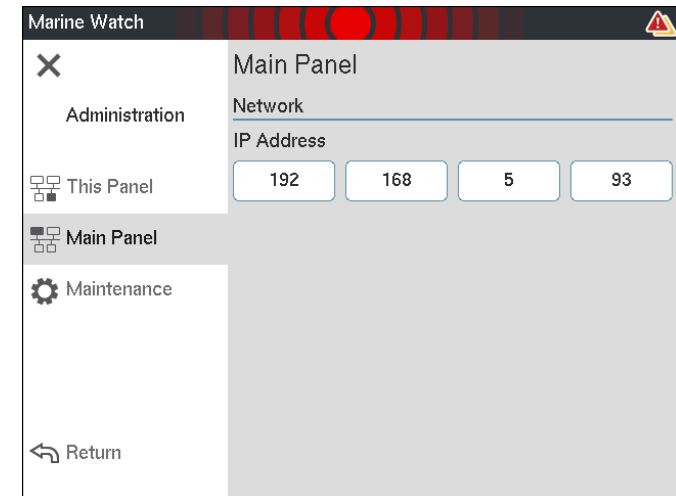

Configuration

The S-ACE Annunciator Panel needs the IP address of the S-ONE Alarm Panel selected as type Main Panel.

1. Power up the S-ACE Panel.

2. Toggle the **Home** button to see the menu.

3. In the menu, select **Administration**.

4. In the Administration section, press the **Log In** button, and type the default PIN-code, **1234**.

5. In the Administration menu, select **Main Panel**. See the screenshot on the next page.

6. Type the IP address of the S-ONE Main Panel here:

Note! To find the IP address of the S-ONE Alarm Panel

On the **S-ONE Alarm Panel** (selected as type Main Panel), select **Menu > Administration**. Note the IP address in the section **This Panel**, and type in above.

Several S-ACE Annunciator Panels

If more than one S-ACE Annunciator Panel is installed in the network, then make sure each has a unique IP address.

1. On the S-ACE Annunciator Panel:
   Menu > Administration > Log In > This Panel.

2. The IP address is typically in the form 192.168.0.X, where X must be set to a unique number in the network in the range 1-250. Default is 201.
